LinkedIn: <https://www.linkedin.com/in/tejasagrawal5/>

Visa Status: Engineer/Specialist in Humanities/International Services (No restrictions on employer change)

PROFESSIONAL SUMMARY

IT professional with an MBA in Information Technology and 4+ years of experience in data analysis, process optimization, and quality assurance. Recently completed intensive programming training in C#, C++, Python, JavaScript, and SQL (MySQL), with hands-on experience in full-stack web development and game engine programming. Bilingual in Japanese (Business/N2) and English (Business), seeking software engineering, web development, or QA engineering roles.

TECHNICAL SKILLS

Programming: C# · C++ · Python · JavaScript (ES6+) · Java · HTML5 · CSS3 · SQL (MySQL)

Web & Tools: Unity · Unreal Engine · Git/GitHub · Firebase · Blender · Next.js (basic)

Business Systems: Tally ERP · Advanced Excel (Pivot Tables, VLOOKUP, Macros)

Languages: Hindi (Native) · English (Business) · Japanese (Business / JLPT N2)

PROFESSIONAL EXPERIENCE

Alten Japan (Assigned to SCREEN Takaoka) | Takaoka, Japan

Semiconductor Equipment Engineer | Apr. 2026 – Present

- Rotate cross-functionally across mechanical assembly, electrical wiring, and module integration for semiconductor fluid delivery systems
- Execute assembly via VPS viewer software following digital work instructions; conduct I/O checks and system-level cross-verification with zero-defect tolerance
- Manage high-precision chemical process modules (H2SO4, DDI, DHF, IPA) with strict safety compliance
- Maintain technical documentation, SOPs, and quality checklists for calibration and troubleshooting

Note: Role involves precision manufacturing; actively seeking transition to software engineering to leverage IT education and programming skills.

TODI TULSYAN & CO. | *Mumbai, India*

Management Auditor | Jul. 2018 – Nov. 2022

- External Audit — CEAT Tyres & Pharmaceutical Manufacturing: Full-scope financial and operational audits; identified control gaps and delivered remediation plans
- Insurance Verification — Star Union Dai-ichi Life Insurance: Analyzed payout datasets in Excel to detect discrepancies and prevent erroneous disbursements
- Internal Audit — Banking Sector: Transaction reconciliation and financial data analysis using advanced Excel (pivot tables, VLOOKUP, macros)
- Taxation & Compliance: Managed GST and income tax return filings for multiple clients using Tally ERP

KEY PROJECTS

Personal Portfolio Website | *HTML5 · CSS3 · JavaScript · Firebase · GitHub*

- Built a fully responsive, bilingual portfolio from scratch with dynamic language switching, scroll animations, and Formspreet contact integration
- SEO-optimized with Schema.org structured data and Open Graph meta tags; deployed via Firebase Hosting

Wilderness Sniper | *Unity · C# · TextMesh Pro · Coroutine System · itch.io*

- Developed a 2D arcade shooter with complete UI/UX system: main menu, pause menu, game over/clear screens, and "How to Play" tutorial
- Implemented "Error Code" mini-game: timed puzzle with WASD controls, coroutine-driven animations, real-time validation, and cross-component communication
- Integrated audio systems, scoring with dual UI displays, and resolution optimization

ShadowNyanNyan | *Unity · C# · 2D Physics · Tokyo Game Show 2025*

- Co-developed a 2D platformer exhibited at Tokyo Game Show; implemented dual-character control system with camera routing, shadow follow logic, and RigidBody2D physics
- Served as primary bug fixer for level scene integration and cross-team code conflicts

Kanaubito | *Unity · C# · 2D Top-Down · ScriptableObject*

- Co-developed a 2D narrative mystery game set in a school; built complete inventory system with ScriptableObject data architecture, drag-and-drop UI, and item stacking logic

- Implemented day/night cycle system with Light2D transitions, fade-to-black coroutines, and event-driven NPC behavior with waypoint-based wandering
- Contributed to level design — full school environment layout and player flow

EDUCATION

Tokyo Cool Japan Vocational School | *Tokyo, Japan* | *Apr. 2024 – Mar. 2026*

Diploma in Game Programming

- Frontend: HTML, CSS, JavaScript | Game Engines: Unity, Unreal Engine | Tools: Blender, MySQL, Python, Next.js (basic)

Toyo Language School | *Tokyo, Japan* | *Jul. 2023 – Mar. 2024*

Japanese Language Studies

Amity University | *India* | *Dec. 2019 – Dec. 2021*

Master of Business Administration (MBA) in Information Technology

Thakur College | *India* | *Apr. 2015 – Apr. 2018*

Bachelor of Commerce (B.Com)

CERTIFICATIONS

- Japanese Language Proficiency Test (JLPT) N2 — Jul. 2025
- Game Design & Development with Unity — Mar. 2022 | Advanced Excel — Jul. 2021
