Takaoka, Toyama — Open to Relocation

Engineer / Specialist in Humanities Visa — No Employer Restrictions

PROFESSIONAL SUMMARY

Software developer with hands-on experience in C#, Python, JavaScript, and Unity. Trained at a Tokyo vocational school specializing in game programming and full-stack web development. Published a game on itch.io, exhibited at Tokyo Game Show 2025, and delivered multiple web and game projects end-to-end. Trilingual (Japanese N2, English, Hindi) with strong documentation and quality discipline from a precision manufacturing environment. AWS Cloud Practitioner certified.

PROJECTS

Wilderness Sniper

PUBLISHED ON ITCH.IO

Unity · C# · TextMesh Pro · Coroutine System

- Designed and built a 2D arcade shooter with full UI/UX: main menu, pause, game-over/clear screens, and interactive tutorial
- Developed "Error Code" timed puzzle mini-game with WASD input, coroutine-driven animations, and real-time validation
- Integrated audio system, dual-UI scoring, and resolution optimization across screen sizes over 3 months (12 commits)

ShadowNyanNyan

TGS 2025

Unity · C# · 2D Physics · Team Project

- Co-developed a 2D platformer selected for exhibition at Tokyo Game Show (September 2025)
- Implemented dual-character control with camera routing, shadow-follow logic, and Rigidbody2D physics
- Served as primary debugger for level integration; resolved cross-team code conflicts and merge issues

Kanaubito

NARRATIVE GAME

Unity · C# · ScriptableObject · 2D Top-Down

- Built complete inventory system (5 scripts) with ScriptableObject data architecture, drag-and-drop UI, item stacking
- Developed day/night cycle with Light2D transitions, fade-to-black coroutines, and event-driven NPC behavior
- Designed full school environment layout and player flow for level design

Client Portfolio Site

DELIVERED

HTML5 · CSS3 · JavaScript · Firebase

- Built foundational bilingual (JP/EN) portfolio structure for a fellow developer with responsive layout and navigation
- Delivered a reusable, customizable template deployed via Firebase Hosting

SKILLS

LANGUAGES

C# Python JavaScript C++
Java HTML5 CSS3 SQL

ENGINES & TOOLS

Unity Unreal Engine
Git/GitHub Firebase Blender
Next.js

CLOUD

AWS Cloud Practitioner

EDUCATION

Diploma in Game Programming

Tokyo Cool Japan Academy
Apr 2024 — Mar 2026

Japanese Language Studies

Toyo Language School, Tokyo
Jul 2023 — Mar 2024

MBA in Information Technology

Amity University, India
Dec 2019 — Dec 2021

Bachelor of Commerce

Thakur College, India
Apr 2015 — Apr 2018

CERTIFICATIONS

- AWS Cloud Practitioner — Sep 2026
- JLPT N2 — Jul 2025
- Game Dev with Unity — Mar 2022
- Advanced Excel — Jul 2021

LANGUAGES

Japanese Business / N2
English Business
Hindi Native

HTML5 • CSS3 • JavaScript • Firebase • SEO

- Built a fully responsive bilingual (JP/EN) site from scratch with dynamic language switching and scroll animations
- Implemented Schema.org structured data, Open Graph meta tags, and Formspree contact integration

• EXPERIENCE

Semiconductor Equipment Engineer

Apr 2026 — Present

Alten Japan (Assigned to SCREEN Takaoka) · Takaoka, Japan

- Execute precision assembly across mechanical, electrical, and module integration phases for semiconductor fluid delivery systems
- Perform digital-instruction-based assembly with I/O verification and cross-checks under zero-defect tolerance
- Manage high-precision chemical process modules (H2SO4, DDI, DHF, IPA) following strict safety protocols
- Create and maintain technical documentation, SOPs, and quality checklists for calibration and troubleshooting

Seeking transition to software engineering to apply programming skills and education.

Auditor / Management

Jul 2018 — Nov 2022

Todi Tulsyan & Co. · Mumbai, India

- Conducted financial and operational audits for clients across manufacturing, insurance, and banking sectors
- Performed data analysis using advanced Excel (pivot tables, VLOOKUP, macros) to identify discrepancies
- Managed parallel projects across multiple industries with strict compliance and documentation standards
- Filed GST and income tax returns for multiple clients using Tally ERP
