OBJECTIVE

To obtain a challenging position as a Game Programmer where I can leverage my specialized training in game development, proficiency in Unity, and strong analytical skills from a background in IT and corporate auditing to build engaging, optimized, and innovative gaming experiences.

WORK EXPERIENCE

Alten Japan (Assigned to SCREEN Takaoka), Takaoka, Japan | Apr. 2026 - Present
Semiconductor Equipment Engineer

- Rotate cross-functionally across mechanical assembly, module integration, and electrical calibration to assemble and integrate complex fluid delivery systems.
- Manage highly volatile chemical processes (including H₂SO₄, DHF, and IPA), strictly ensuring precise environmental and safety tolerances are met.
- Completed an intensive 14-day technical training program focused on mechanical assembly and acquired a professional piping license.

TODI TULSYAN & CO., Mumbai, India | Jul. 2018 - Nov. 2022
Auditor, Management

- Executed comprehensive financial and operational audits for major enterprise clients across diverse sectors, including prominent pharmaceutical companies and CEAT Tyres.
- Conducted rigorous verification checks and pre-payment reconciliations for SUD Life Insurance, ensuring strict financial accuracy and regulatory compliance.
- Analyzed internal financial data, identified process discrepancies, and presented actionable recommendations to management to optimize workflows.

EDUCATION

Tokyo Cool Japan Vocational School, Tokyo, Japan | Apr. 2024 - Mar. 2026
Diploma in Game Programming

- Key Achievement: Co-developed a group game project that was officially selected and exhibited at the Tokyo Game Show in September 2025.

Toyo Language School, Tokyo, Japan | Jul. 2023 - Mar. 2024
Japanese Language Studies

Amity University, India | Dec. 2019 - Dec. 2021
